### Golden Dream (Groff)

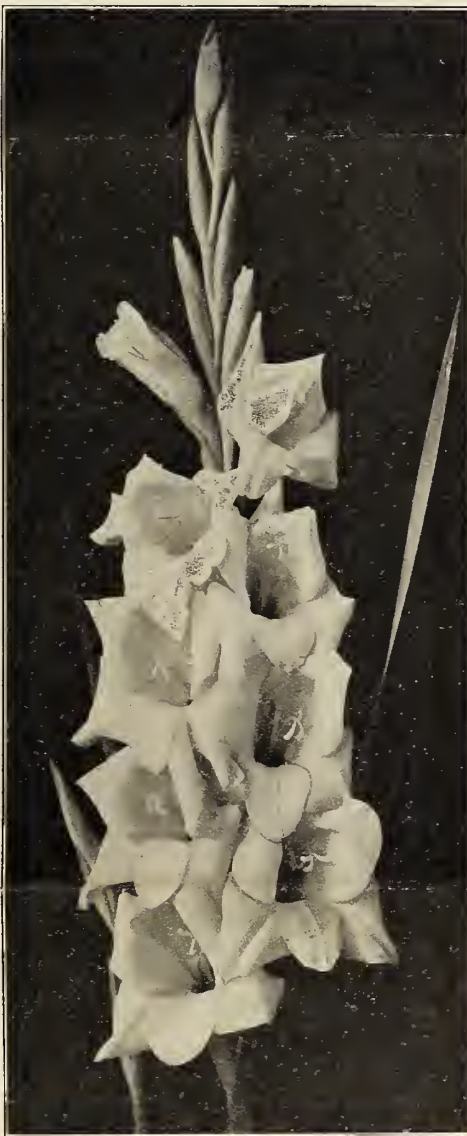

Has made good as the best tall, pure deep yellow in commerce. With the color of Souvenir and better growing qualities than Golden Measure, it makes the ideal yellow for exhibition and cut flower. We predict it will be grown by the millions when better known.

"GOLDEN DREAM"

As it blooms with us

### Golden Dream (Groff)

We have grown this variety for three seasons. In that time it has proven to be all and even better than claimed for. Among more than five hundred varieties that we have tested out in the same soil and under the same conditions we find Golden Dream the hardiest. This fall it stood perfectly green when we dug it which was three weeks after the hard killing frost. Much later varieties started dying down immediately after the freeze. We believe this variety will prove profitable to growers of high class Glads for years to come. Order early as the supply is still limited.
